

20th November 2012

Plantation Supervisor Kununurra – TFS Corporation Ltd

TFS Corporation Ltd manages the largest sustainable Indian Sandalwood plantation in the world, with over 6,500ha planted in the tropical north of Australia.

TFS is growing its operations and now has planting programs underway in NT and QLD as well as Kununurra WA. With a massive 2012 planting program established and a larger development on track for 2013, the company needs to expand its plantation management team.

Reliable and experienced plantation supervisors are required for the ongoing maintenance of TFS Indian Sandalwood plantations in Kununurra WA.

Reporting to the Plantation Manager, the Plantation Supervisors will be responsible for the day to day coordination of plantation work crews and assist with the irrigation of the plantations.
